

TUNNELLING RECRUITMENT

THE
HIGHFIELD
COMPANY

Experts in Tunnelling Recruitment across the UK and Internationally

Do you want to work with someone who has a proven track record supplying technical staff for some of the worlds most iconic tunnel projects? Someone who understands the differences between an EPB, Slurry or even VDM TBM machines as well as the technical needs on an NATM tunnel? If the answer is yes then get in touch.

Some of the projects around the world we have supplied staff to include:

- **Doha Metro** (gold, green and red lines) - 20 Herrenknecht TBM's on 111km of tunnels
- **Alto Maipo Hydro Project** - 66km of tunnelling using TBM's and D&B
- **Riyadh Metro** (BACS, FAST and ArRiyadh JV's) - Herrenknecht and NFM TBM'S
- **Thames Tideway** - Herrenknecht TBM and NATM methods across London
- **KL Metro Malaysia** (lines 1&2) - TBM and D&B including the world's first VDM TBM

Positions that we have filled through out extensive network, built over the past 12 years include;

- Project Director
- Project/Construction Manager
- Tunnel Manager
- TBM Mechanic (electrical and mechanical)
- Geotechnical Manager/Engineer
- Surveyor

- We will find the best candidate for you
- We are not a large organisation driven by profits or sales stats
- Our priority is quality of delivery to meet our client's requirements
- We are ISO:9001 UKAS accredited
- Our quality process ensures that candidates are fully screened, interviewed and referenced to meet the high standard set by our clients
- Our staff are constantly undergoing professional development and training to ensure we are using the latest technology, highest levels of customer service and outstanding performance
